HOW TO USE THIS PARTS LIST

Explanations of symbols (column quidances)

A. KEY #
The key number is to use as reference for locating part number(s) of illustrated drawing shown in the list. The index number is given to individual illustrations. The suffix of key number represents that the part number of the parts changes or modified according to historical sequence.

Sequence of changes	Key #
1	1
2	1A
3	1B

B. SPC (Split part Numbers)
There are part/parts originally with one part number, but broken down into two or more parts and part numbers, due to technical reasons, which can be easily noticed at the KEY # with alphabet letters from A to Z. (these parts are combinations of 2 or more parts in lieu of the original one)

C. CHG (Parts newly added or Modified)
To observe easily the differences between old and new parts list. If the column CHG is/are with:
A : Parts newly added.
C : Parts modified or changed.

D. PART CODE (All blank) See remarks column
